

## **Marketing & Press Deliverables Overview**

**\*Disclaimer: This document is not a comprehensive deliverables list, and you should also refer to our in-depth guide, which includes our deliverables deadlines**

Paramount+ will be home to big, headlining entertainment available on demand, supplying subscribers with phenomenal originals and exclusives that make Paramount+ the streaming service always worth watching. Our deliverables for marketing and publicity enable our subscribers to become immersed in the mountain of content.

Before filming commences, please ensure that you reach out to the press and marketing teams to provide **series treatments, scripts, production schedules, casting grids** and **mood boards**. This will allow us to develop our creative briefs for key art and press specials photography, and to also start drafting our announcement press release. We will optimise your production schedule to produce assets as relevant.
